

WE ARE OPEN!!

GOOD NEWS!

We are allowed to go full speed back at work.

Dentists are now permitted to provide in-person care for all deferred, non-essential, and elective services, in addition to emergency and urgent care.

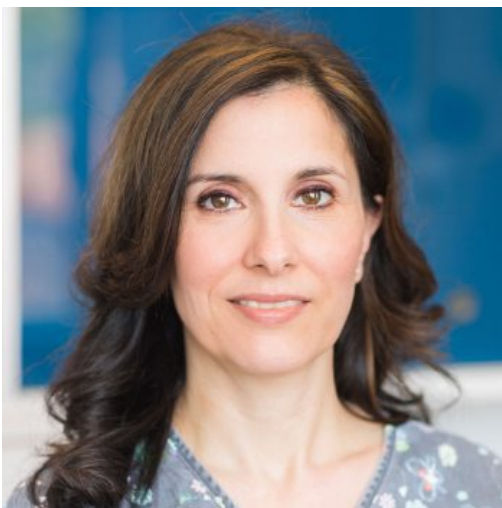

Our team is greeting you

Looking forward to see you all and provide dental care in a safe and clean environment. Also welcoming any new patients. Can't wait to see all your smiles again!

Hope all our dear patients are staying safe. Missing you all so much and hoping to see you all soon to continue your oral care regimen. However, we are excited to see you all again and continue caring for your oral health.

As dental healthcare professionals, infection prevention and control practices are paramount to our safety and yours. Please feel confident in knowing that I will continue to provide quality oral health care services with strict adherence to best practice guidelines. I look forward to seeing to all soon

**Kind regards,
Your Team at Dr. Christina Oprescu-Havriliuc & Associates
Dental Clinic**
